

AC-330 Automatic Blister Paper Card Packing Machine

AC-320B is Suitable for full-cover seal blister card packaging, such as daily commodity (toothbrush), small hardware, stationery, auto part (brake pads, spark plugs), cosmetics (lipsticks), toys (small cars), food etc.

Function

- Machine automatic forming blister, dropping paper card, heat sealing, cutting, automatic product output and residual material recovery.
- Machine is equipped with an accurate temperature control module, PVC shortage alarm, auto stop for insufficient air pressure, auto warning for damaged electrical parts.
- Machine use human-machine interface and PLC control system, and equipped with counting, starting password, fault reminder, maintenance reminder and other functions.

Main Parameter

Production speed	8-13 times/min
Max forming area	300mm*250mm
Max forming depth	40mm
Forming heating power	3kw(*2)
Heat sealing power	3.5kw
Total power	13kw
Air consumption	≥0.5m ³ /min
Air Pressure	0.5-0.8mpa
Packing material (PVC) (PET)	thickness 0.15mm-0.5mm
Max paper dimension	320mm*255mm*0.5mm
Total Weight	3300kg
Machine dimension(L*W*H)	6200mm*800mm*1880mm
