

Automatic Shrinkable Label Inserting Machine XYL-350L

Description:

- Machine constructed by stainless steel with especially and luxurious appearance. Comply with safety regulation. Single machine structure ensures convenient installation.
- Modular design for quick changeover
- New accumulating label system use precision roller design with sliding system. One minute accumulating time for achieve product in speed 350 bottles per minute with 100mm label height.
- High speed splicing system enables reel change without stopping the machine. Improve line productivity.
- All adjustable modular with synchronous design, minor operation and adjustment.
- The accurate gear wheel design for driver system to stable the transition speed and limit the label height within (+/-) 1mm tolerance.
- Using supersonic sensor to detect sleeve with spring tension controller system to ensure feeding sleeve steady.
- Sleeve guider section with sliding system for sleeve supply steadily.
- Colorful interface touch controller has highly sensitive operation by collocate with High Performance Mitsubishi PLC controller.
- Machine design can fit the label height up to 300mm and above.

Specification:

Model	XYL-350L
Power source	3P/ 220V~ 415V
Production rate	350BPM(label length 180mm)
Range of bottle diameter	Ø25 ~ Ø125
Label insertion length	25mm ~ 220mm
Range of label thickness	0.035mm ~ 0.08mm
Material	PVC, PET, OPS
Total Power	5KW
Machine dimension (L×W×H)	1190 × 1250 × 2100mm
