

## ***Premade Doypack Bag Rotary Granule Pouch Packing Machine XYG6/8-200/250/300***

Packing machine with multi head weigher is suitable for pellet or granule material packing, such as dried fruit, grain seed, snack food, noodle, meat, fish ball etc. accurate weighing and fully automatic operation.

Premade doypack bag rotary granule pouch packing machine is used for automatic weighing and packing for granule material. It is widely used in food, grain, nut, snack food, animal feed, chemical industry, conforming to GMP standard. It can achieve bag forming, material weighing, filling, packing, coding and sealing fully automatically under set parameter. It is normally matched with Z shape lifter, multi heads weigher, output conveyor, weight checker and metal detector to form a whole production system.

- Unit configuration: film roller, coder, bag former, vertical heat sealing, horizontal heating and cutting
- Material: contact parts S.S 304 (or S.S 316L if need)
- Electric parts brand: Siemens/Schneider/Omron/Delta etc
- Packing speed: (15-60)bags/min
- Filling range: 10g--5000g

Applied material: granule form material such as cashew, peanut, sunflower seed, corn, animal feed, potato chips etc
