

Four-Head Linear Weigher RZKL-4

The four-head linear weigher and six-head weigher are suitable for weighing grains, rice, coffee beans, sesame, MSG, capsules, seeds, granulated sugar, salt, chicken essence, melon seeds, nuts, pet food, washing powder, pesticide, fertilizer, feed, milk powder, coffee powder, food additives, condiments, tapioca powder, coconut powder, pesticide powder, fertilizer granules, etc.

Main Features:

1. The four-head linear weigher and six-head weigher, suitable for weighing granule and powder, provide high speed and high precision.
2. Microcomputer control system, with dual vibration feed, easy to operate.
3. All parts of the multi-head weigher are made of stainless steel. Hence, the measuring equipment is corrosion resistant, dustproof, and easy to clean.
4. The multi-head weigher can be used independently or combined with packing machine or other packing related equipment.

Main Specification:

Machine name	4 Head Linear Weigher
Model	RZKL -4
Max Load	1000g
Weighing Accuracy	0.5-1g
Weighing Speed	50bags/min
Total power	1KW
voltage	220V single phase 50/60HZ
Weight	220KGS
