

Tea Bag Packing Machine BT-40K

It is suitable for the package of broken tea in filter paper.

Characteristics:

- * It can automatically finish bag making, measuring, filling, sealing, cutting and counting.
- * It adopts micro computer controller, stepping motor to control the length of the bag, stable run, easy adjustment and maintenance.
- * It also equipped with the intelligent temperature controller and PID temperature adjustment, making the temperature tolerance within 1 Celsius.

Packing Material:

Heat sealable filter paper

Main Parameters:

- Bag Size: W: 35-70mm L: 30-100mm
- Packing Speed: 50-60bag/min
- Filling Range: 1-30ml
- Power Source: 220V/50HZ/1.9KW
- Weight: 350kg
- Dimension: 600x700x1800mm
