

## *Aluminum Can Filling Machine DGF 24-6*

### **Can Filling Machine Product Description:**

Aluminum Can Filling Machine (DGF24-6), ASG Machinery is a high quality manufacturer and Suppliers from China. We have been producing can filling machine for 25 years.

1. Can filling machine is applicable for equal pressure filler and capper of carbonated drinks in beer and drink industry.
2. Can filler is a pop canned beer in the digestion and absorption of advanced foreign and domestic sealing machine on the basis of independent development of the can filling, sealing unit.
3. Filling and sealing is the overall designed.
4. Power system by filling sealing system to ensure that both the absolute synchronization and coordination.

### **Technology Parameter:**

- Filling heads: -- 24
- Seaming heads: -- 6
- Production capacity: -- 100-150 cans/min
- Can Diameter: -- 65mm
- Can Height: -- 122-160mm
- Power: -- 3.7Kw
- Weight: -- 3000kg
- Dimension: -- 2580× 1675× 1900mm
- Packing: -- wooden case
