High Precision Multihead Weigher Packing Machine XY-90BSD

Features:

1. Select the optimum combination immediately from plenty weighing combinations by powerful software.
2. Adopt high precision digital weighing load cell and A/D module to get preciser weighing than before.
3. LCD operating display with multiple languages such as English, Russian, German, Spanish, Italian, etc.
4. IP65 whole water proof design. It's easy to clean and maintain. The powerful ability of automatic feeder control to make the machine self-adjusting during running.
5. Provided with strong operation menu to make you study and operate more easily.
6. Can develop special model multi-head weighers according to your request.
7. OEM service is available.

Application:

It is suitable to use in packing the pellets, bar, brain shape materials, such as puffed food, candy, small biscuit, vegetable slice, nut, fried material, pet food, small hardware etc.

Specifications:

Weighing Scope	30-5000g
Accuracy	±0.2% FS
Bag Size	L 30-600mm; W 50-350mm
Film Width(Largest)	720(mm)
Packing Speed	25-50 bags/min
Power	3.0KW
Air Consumption	350L /min
Working Voltage	50Hz 220V
Dimension	1500x1300x1500(L x W x H mm)
Machine Weight	600kg/650kg/700kg
Controller Interface	5.7"LCD
