

## *Granular Products Counting Packaging Machine LD-620Q*

**Application:**

Ball, hot pot, quick-frozen dumplings, quick-frozen food, dumplings, Bigen fruit, nuts, and other granular products counting packaging machine

**Kindly Reminder:**

We have experienced team of R & D engineers who can customize packaging solutions according to your product characteristics.

**Description:**

- The machine adopts high precision servo film transport system, PLC Program Control, developed touchable Human-machine Interface of Advanced Automatic Positioning, Photoelectric Tracking, Digital Temperature Control, etc.
- Operation is more Simple, perfect. It is the first choice of food packaging industry to Improve the production efficiency, reduce Labor Intensity, improve the grade of packaging equipment.
- Transverse and longitudinal sealing Temperature Control independently, suitable for PE/polyethylene, PE/aluminum plating, pet/PE, pp, and other heat-ealing packaging materials, etc.
- It completes the whole procedure of filling, measuring, bagging, date printing, charging (exhausting), product out-putting automatically.
- High precision, high efficiency without crash the materials.
- Packaging style diversified, back sealing, gusset bag, continuous bags, punching, etc.
- Work environment quiet, low noise, saving energy.
- A complete set of equipment is economical.

**Parameter:**

<b>Model</b>	<b>LD-620</b>
<b>Film Thickness</b>	0.04-0.12mm
<b>Bag Length</b>	100-500mm
<b>Bag Width</b>	180-350mm
<b>Film Roll Diameter</b>	Max.320mm
<b>Pakaging Rate</b>	5-55bag/min
<b>Film Width</b>	150-Max.720mm
<b>Measurement Range</b>	4000ml
