Automatic Front & Back Labeling Machine *CY-3000*

CY-3000 Labeling Machine is suitable for square and round bottles. It not only can simultaneously label front and back of bottles but also can label one side of a bottle. This machine is suitable for medicine, food, beverage, and chemical industries.

Features：

1. The machine all made up of stainless steel and aluminum alloy from main board, main frame, conveyor belt table, legging, to interface. Main frame is qualified according to G.M.P standard.

2. Automatically detect the length and label positioning of containers to prevent mislabeling.

3. System notifies the end、shortage、broken of label and has the function of counting.

4. Workable independently or be installed on any production line.

5. Suitable for independent operation, also possible for connection with line operation.

6. The Auto Labeling has been designed for labor saving, and cost resigned for labor saving, and cost reduction in bottle labeling operations.

7. Inexperienced users only need to touch a button and follow the step on the screen, setup simply will be done.

Specification for Product：

Model	CY- 3000A	CY- 3000B
Machine Size (L*W*H)	2500x1450x1400 mm	
Label Length	10-340mm	
Label Height	20-135 mm	20-200 mm
Label Reel (I.D.)/(O.D.)	76 mm / 360 mm	
Product Height	40-320 mm	
Product Thickness (Diameter)	30-120 mm	
Labeling Speed	10-200 bpm.	
Contral System	CPU/PLC	
Power Supply	110V / 220V, 50/60HZ, single phase
