

Aerated Water Bottle Hot Melt Glue Labeler PSR-200

PACKSOUL PSR serious OPP labeling machine is rotary type and suitable for carbonated soft drink, pure water, dairy, juice, edible oil, seasoning, cleaner...etc, every kind of food, beverage, chemical industry and industrial products.

The rotary type labeling machine can meet higher capacity requirement and specially can do the labeling for empty bottle, square bottle, rectangle bottle, large capacity bottle (5-15L).

Features

- Adopt novel design idea and advanced manufacturing technology, which makes structure of machine more reasonable and perfect.
- Star Wheel separation and feeding, correlation design transmission mode high-speed labeling, stable precision.
- Use PLC man-machine interface control system, which can show the equipments' all kinds of operation parameter at any time, such as speed, production capacity and the temperature of glue water.
- Use servo motor to synchronously tracks label supply and use specially designed vacuum drum to ensure precise labeling.
- The machine also is characterized by high precision, compact structure, refined installation, good stability, low glue consumption and low operating cost.

Technical Parameter

Model	PSR-200
Capacity	12000 BPH (500ML)
Power	12KW
Machine Size	2200L*2300W*2000H(mm)
Container Material	PET, PP, PE, HDPE, Glass, Metal etc.
Container Diameter	φ30-200 mm (Can be customized if exceed)
Container Height	100-500 mm (Can be customized if exceed)
Label Roll Inner Diameter	6 inches(152mm)
Label Height	20-250mm
Voltage	AC 3φ 380V/50HZ (Customizable)
Air Pressure	0.6 Mpa
