

Automatic 5 Gallon Barrel Cap Remover Machine BS-1

It is especially suitable for the automatic removal of the cap before cleaning, significantly improving the labor efficiency, reducing the secondary pollution of the manual pulling cap and reducing the labor intensity of the workers. The overall use of high quality stainless steel, corrosion-resistant, easy to clean. The aircraft compact structure, high efficiency and stable, reliable.

Technical parameter:

Model	BS-1
Capacity	100-1200BPH
Cap puller head	1
Barrel application	φ276X490mm
Air supply	Press 0.6~0.8Mpa,air consumption 200L/m
Construction	Cylinder(AIRTAC) action
Power	/
Weight	154KG
Overall size	1400*900*2100mm
