

Automatic Can Filling Machine-non-carbonated Drinks XGF-C

This machine is suitable for plastic and aluminum cans, non-carbonated drinks, function for filling and cap sealing.

Product Description:

1. More reasonable and beautiful overall structure
2. Obvious bigger seaming head, adopt heavy bearing which prolong the seaming cam service, the normal service time could prolong 5 times and more.
3. Twin shafts structure: The first seaming roll and the second seaming roll are separated. User could adjust and control the seaming rolls separately.
4. The rotation direction is anticlockwise direction in seaming process; the seamed cans leave the seamer automatically as its direction to avoid jam and scratch
5. Filling cylinder is arc structure, no dead angle to avoid liquid left. It adopts CIP automatic clean design to clean.

Technical Parameter:

Model	Filling heads	Capping heads	Capacity cans/min	Power	Weight (kgs)	Size (mm)
YLG12-4	12	4	30-170	5.5kw	3100	2850*1500*1900
YLG18-4	18	4	30-250	5.5kw	3800	3050*1750*1900
YLG36-6	36	6	80-400	7.5kw	5000	3660*2530*1900
YLG48-8	48	8	80-600	11kw	7750	3960*2830*1900
YLG12-1	12	1	30	2.5kw	2100	2500*1500*1800
