

FFA-SM Double Cutter Box motion Packing Machine

FFA-SM is specialized on the pharmaceutical industry of infusion and tablets which requires high moisture proof, thicker packing film (60-120microns), and high packing speed. This reciprocating type packing machine adopts two synchronous cutters. In the same rpm, the two cutters cut and seal the package synchronously, one packet in one process circle, this will greatly improve the production efficiency.

Packaging material: Paper/PE OPP/PE, CPP/PE, OPP/OPP, OPP/AL/PE, CPP/OPP/AL the other material which we tested suitable for packing

Options: date coding machine, film recovery system, auto feeding system, alcohol spray system, label sticker and so on.

Technical Parameters:

Packing size (mm)	L (100-450)*W (50-150)*H (5-65)
Packing speed	330-160 packs/min
Packing film	PET/PE PET/AL/PE OPP/PE OPP/OPP, etc.
Diameter of inner bore	φ75mm
Packing film thickness	0.04-0.12mm
Packing film width	According to the product
The total power	4KW,220V
The dimension & weight	5000*1100*1500(mm);1000KG
Application	The industry with high requirement on the moisture proof, such as the infusion, medicine tablets, etc.
