

YD-169 Tea Bag Inside And Outside The Bag Packaging Machine

The machine is suitable for tea, herbal tea, health tea grassroots small particles inside and outside the bag packaging.

Function:

1. Outside Paper consists of stepper motor control, bag length stable, accurate positioning;
2. Using the PID temperature controller, temperature control more accurate;
3. PLC control action of the machine, man-machine interface display, easy to operate;
4. All can contact materials of SUS304 stainless steel, ensure health of products;
5. The part of the working cylinder adopts imported parts, guarantee the working accuracy and stability.
6. The native additional device can complete the flat cutting, date printing, easy tear etc.

Parameter:

Model number	YD-169
The sealing form	three edge sealing
Measuring range	1-5 g/bag
Inner bag size	length 50—75 mm; width 50—75 mm
Outer bag size	length 85—120 mm; width 75—95 mm
Label size	25X25 (length * width)
Production capacity	30-50 bags/min
Input power	220V/50HZ single phase
Total power	3.7kw
Whole machine weight	650KG
Dimensions	1050x700x1300 (length * width * height) (mm)
