

WE-188 Drip Coffee Tea Bag Packing Machine

It's Coffee Packing Machine for Espresso tea Pod, machine dosing tea, forming tea pod bag, wrap with outside film sachet, and fully automatic system.

We are a Chinese packaging machine factory for over 18 years, got the ISO9001 and CE certification. We offer Drip Coffee Tea Machine, a machine for dosing tea, forming a drip sachet, wrap with an outside film sachet, and hanging it on the cup, conveniently to drink coffee. This machine is suitable for small granules like coffee or tea.

Feature

1. The drip bag is able to hang on the edge of a teacup with a special drip bag design, 3 side sealing type, which is better to brew coffee or tea, beautiful bag style which is popular in the market.
2. Machine fully automatically makes a bag, dosing, filling, sealing, cutting, and counting bags, a printer is an option.
3. Adopt a precise control system, compact structure, intelligent interface, friendly operation, convenient adjustment, and easy maintenance.
4. Adopt a servo motor for the inside bag length control, precise positioning, and stable bag length. The outside bag is elegant with photo electrical positioning and a steps motor for pulling the film.
5. The material of the inside bag is a non-woven fabric which is safe and convenient. Use the advanced ultrasonic sealing method to keep tight sealing and an elegant bag. The outside bag is the hot sealing method.
6. Gas Nitrogen inside the coffee bag is an option.

Parameter:

Sealing style	Ultrasonic sealing for the inside non-woven bag, hot sealing three sides for the outside film bag
Range of measuring	5 – 10 g (15 ~ 33 ml)
Bag size	Inner bag (L) : 70 – 74 mm (W) : 90 mm Outer bag: (L) : 120 mm (W) : 100 mm
Dimension	1720 * 900 * 2270 mm 660 kg
Speed	20-35 bags/min
Pack material	OPP/CPP, OPP/PE MST/PE PET/PE
Power	220V/50HZ single phase 3.7kw 0.5-0.7Mpa $\geq 0.6\text{m}^3/\text{min}$
