

## Link-GZ-12 Automatic Liquid Filling Machine

- The world famous brand of electrical and pneumatic components, low failure rate, reliable performance, long service life.
- Using high strength stainless steel frame, easy disassembly, easy cleaning, in line with GMP requirements
- Filling volume and filling speed adjustment is simple, by touch screen operation and display, beautiful appearance;
- With no bottle no filling function, automatic control of liquid level feeding;
- Bottles of different shapes and specifications can be adjusted quickly without replacing parts;
- The filling head is equipped with a special leak-proof device, filling without drawing, dripping phenomenon.

### Technical Parameters:

Model	Link-GZ-12
Filling range	50-500ML
Speed (bottle/hour)	3000-4000
Measurement accuracy	±1%
Rated power and voltage	3KW, 380V
Work pressure	0.6-0.8 MPA
Bin volume	250L
Gas consumption	6-7kg/cm <sup>2</sup>
Machine weight	850KG
Machine size	2100 * 1400 * 2200 (mm)
