

HG Steam Tunnel (SS Series)

INFORMATION

1. All SUS304 stainless steel frame, elegant and compact, non-coating process, pollution free.
2. Equipped with large size stainless steel steam storage tank, which stores enough steam to provide stable and even steam spray, and this helps shrinking effect more perfect.
3. Dual wall design for energy saving, heat isolation and operators protection.
4. Multiple sets of steam nozzle enable user to adjust according to sleeve position.
5. Equipped with trapping and draining device for evacuation of waste steam.
6. Equipped with Japanese steam pressure reducer to stabilize steam pressure.
7. Extra steam exhaust design is able to prevent steam leaking from tunnel.

SPECIFICATION

機 型 Model	SS-1500	SS-2000	SS-3000
長×寬×高(mm) Dimension(L x W x H)	1500x540x1850mm	2000x540x1850mm	3000x540x1850mm
重量 Weight	310kg	400kg	530kg
電 源 Electric Power	AC 3φ 220V : 750W		
入蒸氣源壓力 Steam Input Pressure	低於 3kg Below 3kg		
蒸氣吹嘴 Steam Nozzle	12 set	24 set	24 set
蒸氣量 Steam consumption	300 kg/h	330 kg/h	400 kg/h
