Bottle Unscrambler YMLP

The Bottle Unscrambler is used to automatically orient and feed non-fragile containers (plastic or metal) into the production line. Bulk bottle tank and bottle elevator is optional to improve degree of automation.

Features:

- Fully automatic, easy to set up and operate, no skilled personnel required.
- Hand wheels and calibrated settings allow for ease and repeatability of changeovers.
- PLC controls, speed adjustable. Outgoing side full/empty of bottles, machine will stop/start automatically.

Technical Parameters:

- Capacity: 40-200pcs/min (customizable)
- Power supply: 220V 50/60Hz
- Power: 1kw
- Net weight: 350kg
- Dimension: 1200×1000×1200mm(customizable)
