

Semi-Automatic Plane Labeling Machine YQTB-70

Specifications:

- Pneumatic and electric control
- Stable performance
- High precision
- Economical and practical
- Easy operate

Features:

- Low Cost Entry-level Labeling Solution
- For Low Production For Flat surface labeling application, e.g. box and cover etc.
- High precision with label position Improve efficiency for minimal cost
- Maintenance free and easy to use
- Aluminium Alloy construction
- Compact desktop design, occupies minimum space
- Transparent label sensor to detect and ensure no label missing
- Thermal Coder optional

Technical Parameters:

Accuracy	±1mm
Speed:	20 - 60pcs per minute
Label Width	30 ~ 120mm
Label Length	30 ~ 120mm
Applicable range of container	L:30-300mm W:30-150mm H:50-350mm
Max. OD of Label Roll	300mm
Label Roll ID	76mm
Label pitch	3-4mm±0.2mm
Power Supply	220V 50Hz
Power Rating	120W
Dimension	60×45×60cm
Weight	38Kg
