

XFL-T Pyramid Shape Tea Packing Machine

This machine is a professional packing machine designed for the popular stereoscopic tea bags, which is fast speed and finished bags are with beautiful appearance, packaging material is food grade, healthy and fashion.

Features:

- High-frequency ultrasonic technique is applied, which can make triangle and square shape tea bags, bags are firm and nice appearance.
- One-key switchover for triangle and square shape, simple and easy operation.
- Sliding board volume adjusting method can fast change the filling weight.
- Film feeding device is equipped with optical fiber and servo for eye mark tracking, which enables the accurate positioning, stable bag length and easy commissioning.
- Electrical parts are well-know brands as Mitsubishi PLC, Siemens touch screen, Panasonic servo motor, Schneider etc, ensures the fast packing speed and its stability.

Technical Data

Packing speed	60~80pcs/min
Filling range	1~10g
Accuracy	±0.15g
Dosing method	Volumetric type
Film roll inner diameter	φ76mm
Film roll outer diameter	≤φ400mm
Film width	120mm 140mm 160mm
Film type	special non-woven fabric, nylon, corn fiber
Operator	1人 1 staff
Air pressure	≥0.6Mpa
Power	0.8Kw
Overall dimension	L960 X W860 X H2200 mm
Weight	250Kg About 250kg
