

DXD-400B Chain Bucket Packing Machine

Suitable for packaging materials like all kinds of shrimp, sweets, chocolate, biscuit, seeds, frozen food etc.

Features

- Reasonable design, simple structure.
- Controlled by single-chip computer, stepping motor, convenient and correct bag length setting.
- Simple, fast speed regulation.
- Optional: continuous-packaging control device, gas-filled device (air source supplied by users).

Technical Parameters:

Packing speed	15-60 bag/min
Bag-making size	(L)60-250mm (W)60-180mm
Filling range	50-850ml
Film width	140-400mm
Packing materials	OPP/CPP PET/PE
Film thickness	0.04-0.08mm
Film roll diameter	Max. 320mm
Power supply	AC220V 50Hz 2.5kw 1 phase
Machine dimensions	(L)1100×(W)820×(H)2150mm
Machine weight	400kg
