

HZ-680 High Accuracy Flat Labeling Machine

Applicable to glass bottles, plastic skin, batteries and other cylindrical objects.

Tapered plant body can be customized.

According to the need of the products can be installed printer; such as the need to install hot printing machine, can be customized.

Can be independent operation, or convergence conveyor line

Product features:

1. The whole machine is made of SUS304 stainless steel and advanced aluminum alloy.
2. Advanced servo motor label head using imported drive, fast speed, high positioning accuracy.
3. All electric eye are advanced imported photoelectric electric eye.
4. PLC with man-machine interface control, operation concise.
5. Labeling position, high and low front and back adjustment.
6. Height matching operation of conveyor belt height visual production line.

Parameter:

Model	HZ-680
Voltage	AC220V/50hz
Power	180W
Object length	40-320mm
Object wide	30-400mm
Object thickness	0.02-5mm
Speed	34m/min
Gross weight	27kg
Machine size	800*530*275mm
