

Coffee Vacuum Brick Bag Packing Machine CVBP-500

In the world of coffee packaging, there is a need for precision, efficiency, and preservation. Therefore, to solve this problem a game changer came into existence known as a coffee vacuum brick bag packing machine. This kind of technology simplifies the process of packaging thus ensuring high quality as well as freshness of coffee beans.

Technical Specification:

Machine Model	CVBP-500
Bag Types Supported	Vacuum brick bags for coffee
Bag Dimensions	Length: 120mm – 220mm Width: 70mm – 120mm
Vacuum Degree	-0.08 MPa (-600 mmHg)
Speed	Up to 30 bags per minute
Power Supply	220V/50Hz or 380V/60Hz, 3 phase
Power Consumption	2 kW
Air Pressure	0.6 MPa (87 psi)
Air Consumption	0.4 m ³ /min (14 CFM)
Machine Weight	800 kg
Machine Dimensions (LxWxH)	1800mm x 1200mm x 1500mm
Material	Stainless Steel 304
Control System	PLC (Programmable Logic Controller)
Touchscreen Interface	7-inch color touchscreen
Filling System	Auger filler or volumetric cup filler (customizable)
Sealing Type	Vacuum sealing
Packaging Material	Laminated films (PET/AL/PE, PET/PE, etc.)
