

TFP-TF15 Automatic Paper Tray Folding Former

The automatic paper tray former also called Tray erector or tray packer adopts pneumatic control, which is automatically folded and formed through the mold, and the paper flap automatically locks the cardboard, so that the cardboard forming does not need to be sealed with tape or hot melt glue.

Applications

This carton forming machine is widely used in electrical appliances, toys, food, beverage, clothing, automotive supplies and other industries.

Technical Parameters

Machine Model	TFP-TF15
Carton application type	Paper tray
Tray/Box Size	L300-500xW150-250xH40-80mm(customized)
Production capacity	Max 15 pcs/min
Gas consumption	200NL/min
Gas pressure	0.4-0.7mpa
Power supply	380V/220V;50-60Hz, 1Kw
Machine dimension	2050x1450x2000mm
Machine weight	500Kg
