

HW-680D Powder Packaging Machinery

The packing machine is suitable to packaging powder, such as milk powder, coffee powder, tea powder, face mark powder, spices, sweet flour, flour etc.

Feature:

1. By screw machine complete measuring, filling, suitable for measuring powder material
2. The servo drive system, has the advantages of high precision, stable performance
3. Stainless steel open container clean and convenient.
4. Equipment with safety protection so as to meet the requirements of enterprise safety management
5. Intelligent temperature control, accurate temperature control, ensure nice, flat seal
6. Plc double pallor single tensile membranes structure charts system, motor sealing and cutting positions adopt automatic correction device

Specification

Type	HW-680D
Width of film roll	Max.680 mm
Bag length (max)	400 mm
Bag width	180-320 mm
Film roll of diameter	max.680 mm
Packing speed	5-50 bag/min
Measuring range	4000 ml
Film thickness	0.04-0.12 mm
Power supply	220V,50/60HZ,2KW
Machine weight	700kg
Machine size	L17800 x W1350 x H2050 mm
