

C19H Ultrasonic Drip Coffee Bag Packing Machine

This machine is suitable for inner bag and outer bag packing for tea, medicine tea, health care tea, coffee and any other materials, it can finish inner bag packing and outer bag packing at one time.

Features:

- The outer sealing paper is controlled by a stepping motor, with stable bag length and accurate positioning;
- Using PID to adjust the temperature controller, the temperature control is more accurate;
- PLC is used to control the running of the whole machine, and the man-machine interface is displayed for easy operation;
- All material contacting parts are made of SUS304 stainless steel to ensure the sanitation and reliability of the product;
- Part of the working cylinder adopts original imported parts to ensure its accuracy and stability.
- The additional device of this machine can complete functions such as flat cutting, date printing and easy tearing.

Technical Parameters

Packing type:	Three-side sealing (outer bag)
Outer bag size:	Length: 85~120mm ; Width: 75~100mm
	(aluminizing compound film width: 200mm, bag size: 100x120mm)
Inner bag size:	Length: 50~75mm ; Width: 50~90mm
	(filter paper width: 180mm, bag size: 90x75mm)
Packing speed:	40-50 Bags/Min
Packing quantity:	5~15g
Power:	Mono-phase, 220V, 50HZ, 3.7KW
Weight:	650KG
Dimension:	Length 1200*Width 900*Height 1900mm
