

Auger Powder Packing Machine DXDF-100AX

DXDF-100AX Auger automatic filling machine offers precision, speed and versatility when handling powders and granules.

Engineered to accurately dispense and fill a wide range of products, our automatic auger dispensing machine includes stainless-steel construction, easy-to-remove tooling and hopper allow for simple cleaning and maintenance.

Auger filling technology is most commonly used in applications requiring portioning and dispensing of powders, spices, coffee grinds, chemicals, flour, sugar, salt, baking mixes and other products with similar characteristics.

Our powder packaging machines are designed to accurately dispense your product by using a custom designed screw that will dictate how many revolutions are required to volumetrically achieve your desired weight.

All models include PLC controls, color touch screen for repeatable long term performance, easy to access product hopper and available feedback controls allow for fill volume adjustment.

Parameter:

Model	DXDF-100AX
Voltage (V/Hz)	AC 220/50 110/60
Power (W)	1700
Capacity (bags/min)	20-40
Packing Capacity (ml)	10-100
Length of Bag (mm)	50-200
Width of Bag (mm)	50-150
External Dimensions(L×W×H) (mm)	1130*860*1950
Net Weight (kg)	375
