

BTB-400 Three-dimensional Packaging Machine

The machine adopts multi station turntable alternative packaging mode, all wrapping and heat-sealing actions are completed by cam drive, with the characteristics of fast speed and stable operation. The frequency converter is used to adjust the packing speed, which can reach 20-30 packages / min according to the different packing items. Changing the mold can pack different sizes of items.

Technical Parameters

Packaging	BOPP smoke film and gold wire
Packing speed	20-30bag/min
Maximum package size	(L)300×(W)200×(H)100mm
Power supply and total power	220V 50Hz 5kw
Weight	800Kg
Dimensions	(L)2250×(W)880×(H)1650mm
