

HC-GZ2/4/6/8 Liquid Rotary Premade Pouch Packing Machine

Rotary Premade Pouch Packing Machine is a type of packaging equipment used to automatically fill various products and seal pre-made pouches.

Rotary packing machine features a rotary design, which allows for high-speed, efficient, and continuous packaging operations.

Rotary pouch packing machine is commonly used in industries such as food, beverages, pharmaceuticals, and chemicals.

Product Description

1. Premade pouch filling machine can realize the packaging of flag spout bag and self-supporting spout bag
2. Premade pouch packing machine is used for baby food washing, nursing, beverage seasoning, sauces, cosmetics, drinking water, and other packaging.
3. Premade pouch fill and seal machine is made of 304 stainless material, and the part in contact with the material is food-grade.
4. Premade bag packaging machine adopts the combination of pneumatic, mechanical transmission, and PLC control, with advanced and reasonable configuration.
5. Automatic quantitative filling, accurate quantitative, no spatter, no leakage.
6. The constant magnetic capping device makes the capping loose and tight properly.

Working process

Bag sorting—Automatic bag feeder-Coding date—automatic filling-Cleaning bag mouth (can be refilled)-Automatic cap sorting--Cap detection-automatic hanging cap screw cap - finished product

Technical parameters

Model	HC-GZ2	HC-GZ4	HC-GZ6	HC-GZ8
Filling Nozzle	2	4	6	8
Packing Speed	25-35 bag/min	50-70 bag/min	80-100 bag/min	100-120 bag/min
Filling range	20-180ml, 80-350ml, 500-5000ml			
Filling accuracy	±1%			
Air Pressure	0.65-0.95 Mpa			
Air Consumption	0.5-0.9m /min			
Voltage	220V/380V 50Hz			
Air Consumption	500L/min			
Power	7KW			
Machine weight	1200kg	1500kg	1800kg	2100kg
Machine dimension	1100*1300*2000mm	1500*1300*2000mm	2200*1300*2000mm	2600*1300*2000mm
