

## ***DSK-2B Wide Caliber Auto Shrink Sleeve Applicator Labeler***

### **Machine Features**

- Cutter plate and drive are using Yasukawa drive system and server motor for motion with stable and accurately.
- Machine design can fit the bottle diameter from 135mm to 210mm.
- Dual drive design for motion with stable and accurately.
- Cutter plate is driven by gear for longer using and perfect cuts.
- Drive and front/ rear blocking use linkage arrangement to make the position of mandrel more accurate.
- Feeding roller with cam design to reduce the time of sleeve installation.
- Seven inches HMI touch screen has highly sensitive operation by collocate with High Performance motion control system to make the operation more convenient.
- Sensors are using SICK grade for motion of sleeve more stable and accurate.

### **Innovative Features**

Adopts dual drive system, interlink design and color-coded sensor for accurate and efficient identification.

## Specifcation

<b>Max speed</b>	150BPM
<b>Bottle Diameters</b>	ψ135mm~ψ200mm
	(Based on the bottle dimension of specification provided by the customer)
<b>Film Material</b>	PVC /PET /OPS
<b>Film Width</b>	PVC: 0.04mm~0.05mm
<b>Machine Size</b>	1100mm*1180mm*2000mm(L*W*H)
	(Dase-Sing reserves the right to mofify the apperarance and dimension of the machine, in order to optimize the fuction of the requirement)
<b>Voltage</b>	3P;220V
	(According to customer requirement)
