

## ***HTL-520A Vertical Granular Packing Machine (500 - 2000 grams)***

Vertical granular packing machine can be used to pack various fine & small granular into sachets, like sugar, salt, rice, peanuts, tea, coffee beans, grains, banana chips, potato chips, plantain chips, seeds, chin, nuts, small snack, small biscuits, brown sugar, small dry food, detergent powder etc

### **Features**

1. The machine adopts high precision servo film transport system, PLC Program Control, developed touchable Human-machine Interface of Advanced Automatic Positioning, Photoelectric Tracking, Digital Temperature Control, etc.
2. Operation is more Simple, perfect. It is the first choice of food packaging industry to Improve the production efficiency, reduce Labor Intensity, improve the grade of packaging equipment.
3. Transverse and longitudinal sealing Temperature Control independently, suitable for PE/polyethylene, PE/aluminum plating, pet/PE, pp, and other heatsealing packaging materials, etc.
4. It completes the whole procedure of filling, measuring, bagging, date printing, charging (exhausting), product out-putting automatically.
5. High precision, high efficiency without crash the materials.
6. Packaging style diversified, back sealing, gusset bag, continuous bags, punching, etc.
7. Work environment quiet, low noise, saving energy.
8. A complete set of equipment is economical.

**Technical Parameter:**

Bag size range	Width 80-250mm,Length 80-400mm
Packing weight	500g - 2000g depend on products density and bag size
Packing speed	20-50 bags/min
Bag type	pillow bags, pillow bags with round hole, gusset bags, quad seal stand-up bags etc
Total power	4.2 kw
Compressed air Consumption	0.6
Air pressure	0.65
Touch Screen	Yes
PLC	Yes
Date Robbon Printer	Yes
Machine Dimensions	L4100mm * W1880mm* H3550mm
Machine Weight	1680kgs
