

## *MIC-10B Shrink Packing Machine*

For industries requiring high-quality and secure packaging, the MIC-10B Shrink Packing Machine from MIC Machinery delivers exceptional performance. Designed to handle 8-10 pieces per minute, this automatic shrink packing machine ensures efficiency, durability, and precision in shrink wrapping various products. Whether used in the food, beverage, pharmaceutical, or consumer goods industry, this auto shrink wrapping machine enhances packaging speed while maintaining a professional finish.

### **Key Features of the MIC-10B Shrink Packing Machine**

The MIC-10B shrink packaging machine is built with advanced technology to provide seamless and high-quality shrink wrapping. Its standout features include:

1. **Automatic Operation:** The automatic shrink packing machine simplifies packaging by reducing manual labor and increasing productivity.
2. **Precise Heat Control:** The machine includes adjustable heat settings, ensuring optimal shrink wrapping for different product sizes and materials.
3. **Versatile Application:** Suitable for various industries, including food, beverage, cosmetics, pharmaceuticals, and household products.
4. **Compact and Space-Saving Design:** The auto shrink wrapping machine is ideal for businesses looking to optimize floor space while maintaining high efficiency.
5. **Energy Efficient:** With optimized power consumption, the MIC-10B shrink packaging machine minimizes operational costs while delivering consistent results.
6. **Durable Construction:** Built with high-quality materials, this machine ensures longevity and reliable performance with minimal maintenance.

## Parameter

Dimension for the whole unit	L6500mm*W3200mm*H2100mm
Thermal shrinkage passage dimension	L1800mm*W650mm*H400mm
Max package dimension	L600mm*W400mm*H350mm
Packaging speed	8-10 pcs/minute
Transfer belt width	304mm
Sealing and cutting time/temperature	0.5-1.5s 140°C-160°C
Operating power supply/power	380V 24kw
Operating air pressure	0.6-0.8Mpa
