

MT-300 Automatic Horizontal Small Bottle Labeller Cosmetic Lipstick Plastic Tube Adhesive Labeling Machine

The MT-300 Automatic Horizontal Small Bottle Labeling Machine is a high-precision solution designed for seamless labeling of small round bottles, vials, ampoules, and other cylindrical containers in industries such as cosmetics, food & beverage, pharmaceuticals, and personal care. With a labeling speed of 20-40 pieces per minute, label size capability from 20-150mm length & 20-100mm width, and ± 1 mm accuracy, it ensures clean, wrinkle-free label application. Featuring PLC touch control, quality sensors for automatic detection, a stainless steel frame (SUS304/316), and adjustable guide rails, the machine offers robustness, hygiene, and adaptability to different bottle diameters. The MT-300 works efficiently in production lines or as a standalone unit, delivering reliable performance and reducing labor costs.

Technical Parameters

Model	MT-300
Voltage	220V 50/60HZ
Power	1500W
Dia of Bottle	18-20mm
Width of Label	20-100mm
Length of Label	20-150mm
Speed	20-40Pcs/Min
Accuracy	± 1 mm
Machine Size	2100*900*1750mm
Weight	260Kg
