STB-120 High-Speed Tea-Bag Envelope

STB-120 High-Speed Tea-Bag Envelope Packing Machine Details

Characteristics

- Safety Protection: Short circuit protection, overload protection, leakage protection.
- Grouped tea bag output device.
- Various heat sealable laminated materials. (Plastic/P.E, Plastic/foil/P.E)
- Perfect tea bag performance.
- Provide Servo and PLC control system, touch screen display, Operating easily.

Options

- Date printing device.

Packing materials consumption

- Envelope: 1100bags/kg.

Note: Envelope material: OPP19/PET-AL12/PE40, Other materials is different.

Parameters

Modal	STB-120
Packing Speed	120±10 bags/min.
Max. Dosage	10 cm ³ /td>
Filter Paper Width	125mm, 140mm
Filter Bag Size	45mm x 60mm
Envelope Size	70mm x 80mm
Tag Size	28×32mm
Length of thread	148±5mm
Power supply	AC 380V/220V 50HZ(Custom-made available)
Power Load	10kw
Machine Net Weight	450KG
Machine Gross Weight	500KG
Compressed Air Pressure	0.6bar
