etc; all can be shown directly from the screen, and can also adjust and control on the screen. Filling, cutting and heating automatically and sealing, cutting the edge and product coming out all automatically. It is easy to adjust the quantity of filling and filling speed is adjustable too. The machine is suitable to all kinds of plastic product filling, sealing, date print, and cutting. The shape after cutting is good looking and neat, sealing is fast, measurement is precise.

2. Technical Parameter

Power supply	220V 50HZ
power	1.1kw
air supply	36m ³ /h
pressure	0.6-0.8MPa
Filling Volume	5-75 10-150 50-300(ml)
Capacity	20-40pcs/min
accuracy	≤±1%
Main Machine size	1000*800*1500mm
Tube diameter	Ø8mm-45mm
working temperature	5-300℃
Main machine Weight	400kg

3. Main Electrical Component List

No.	Name	Brand/Manufacturer	Qty.
1	CAM indexer	Zhecheng, Shandong	1PCS
2	Paste pump	Made by us	1SET
3	Main motor	Huadiao, Nanjing	1PCS
4	Man-machine interface touch	Xinjie, Wuxi	1PCS
