

## *RGXG50 Star Tray Type Automatic Locking Cap Machine*

### **Introduction:**

1. No bottle or wrong position, it will not work.
2. The disk vibrates to drop the cap, and the manipulator picks the caps correctly, the caps are held by cylinder (the holding force can be regulated), there's no damage when revolving the caps.
3. The wrenching force can be adjusted when locking different caps.
4. There's cushion setting on the head of the locking cap to further reduce the shattering rate.
5. The complete machine has got many self-inspection: the machine will automatically stop when no bottle to lock, blocking when out of exit, wrong orientation, dump age of the bottle.
6. The locking head parts and the star tray can be replaced according to different container or bottle caps, the replacing operation is easy.

### **Parameter:**

Item	Parameter
Model	RGXG50- I
Kinds of revolving caps	Screw thread revolving cap
Capacity	40-50b/min
Voltage	3φ380V
Power	1.2KW
Consuming tolerance	4Kg 30L/ min
Weight	700Kg
