

VS-6030A Automatic Shrink Packaging Machine

VS-6030A Automatic Shrink Packaging Machine is used for packing the beverage, beer, mineral water, pop-top cans and glass bottles with a tray or a carton etc. It is designed for the single product or the products with a tray, the sealing machine can be connected with the production line and with its auto feeding, film wrapping, sealing & cutting, shrinking and cooling, need not an operator.

Features:

1. Adopts imported advanced technology and artwork, ensure the machine's stability and reliability
2. The film feeding is controlled by sensors, so that much lower the waste of the film is made.
3. The imported Omron digital temperature controller from Japan ensures the accuracy of the temperature
4. The imported Sick sensors from Germany induce the product
5. The steeples mechanical speed controller adjusts the conveying speed
6. Adopts Mitsubishi PLC, realized the integrated with the machine, electricity and air
7. Adopted specially designed sealing cutter, results in perfect sealing line, avoid the film sticking the cutter
8. The conveying belt can be set on the left or right side according to the customer's needs

Technical Parameters:

Model	VS-6030A
Machine dimension L×W×H (mm)	1360×2120×1900
Max packing size L×W×H (mm)	≤700
Sealing cutter size/tunnel size L×W×H (mm)	700
Infeed conveyor height (mm)	850±50/1500
Sealing temperature/shrink temperature	0-200°C
Packing speed (pcs/min)	6-18
Net weight (kg)	380
Power (kw)	2
Power supply	3φ220V/380V 50/60Hz
Compressed air (kg/cm ³)	6
Film used	PVC, PE
