

**KFG**

Antibiotic vial (injectable powder) screw-filling machine

**Product Elucidation:**

It is aseptic powder needle packing dividedly and seal apparatus. This mechanical group adopts the microcomputer to establish the computation, simple to use, easy to operate, and it is convenient to disassembly, convenient to clean the key position, accord with GMP requirement totally.

Main Technical Specifications	
Applied bottle range	2-20 ml, 30-100ml, 100ml-250ml antibiotic bottle
Packing amount error	≤ ±1%
Automatic stopper rate	≥ 99%
Eligibility rate of rolling cover	≥ 99%
Power supply	220V 50HZ
Speed control	frequency conversion and adjust the speed
Using vaccum degrees	14m3/h
noise	≤ 70db
Dimension	2620*1000*1750 mm
weight:	480kg
