

## *HG Standard Shrink Sleeve Applicator (HLA Series)*

### **INFORMATION**

1. Elegant appearance, compact construction, and unique modularization design.
2. Rotating knife plate features optimal rigidity and smooth motion. With internal sensor, origining system is totally automatic.
3. Mandrel easily positioned, providing efficient changeover.
4. Equipped with HMI, providing easy operation.
5. Innovative machine structure ensures excellent durability, unmatched by other brand.
6. Succinct machine structure minimizes the possibility of trouble and optimizes the maintenance.
7. Equipped with safety housing to prevent operator injury.
8. Well-performing equipment at competitive price for value-added operation.
9. Equipped with intelligent memory settlement when sleeving multiple bottle types at different speed, providing user-friendly and convenient changeover.

# SPECIFICATION

	機 型 Model	HLA-2150	HLA-2200	HLA-2250	HLA-2300
MACHINE 主 機	長×寬×高(mm) Dimension(L x W x H)	980x670x2040			
	重 量 weight	500kg	500kg	500kg	500kg
	電 源 Electric Power	AC-3 Phase 220V / 2.5KW			
	速 度 Speed	150 BPM	200 BPM	250 BPM	300 BPM
CONTAINER 容 器	直 徑 Diameter	φ10-125mm			
	高 度 Height	Max. 350mm			
	材 質 Material	玻璃、金屬、塑膠 Glass, Metal, Plastic			
	形 狀 Shape	圓、橢圓、方形、長方形 Round, Oval, Square, Rectangular			
SHRINK SLEEVE 收 縮 膜 材	材 質 Material	PVC, PET, OPS, PLA			
	厚 度 Thickness	0.035-0.08mm			
	膜料紙管內徑 Inner diameter of sleeve roll	5"~10"
