

Automatic Tube Filling Sealing Machines

We have established ourselves as a renowned manufacturer, supplier and exporter of an incredible array of Automatic Tube Filling Sealing Machines. Manufactured following set industry standards & norms, our machines are available in both cam indexer as well as geneva mechanism with changeable tube holding unit for variable tube size. These machines can seal both lami and plastic tubes. The offered range consists of a hot air system and hot air nozzle with basic M/c. While operating, the user loads the filled tube in the tube holder that is sealed with ultrasonic heater, batch coding and finally trimming is done.

Features:

- Easy to operate
- Compact in design
- Indian made hot air or Switzerland hot air
- Jacketed hopper with stirrer
- Tube counting device
- Tube orientation

Product Details:

Speed	25 to 40 tubes / min
Volume	5 ml to 200 ml
Tube Size Diameter	12 mm (min.) to 35 mm (max)
Tube Size Length	50 mm (min.) to 200 mm (max)
Power Consumption	2.5 kW Max.
Size (L x B x H)	100 x 100 x 56
Net Weight	250 kg
Gross Weight	475 kg
