

Electronic Capping And Screwing Machine FRS-D902

This model capping machine can cap kinds of different metal & plastic caps. It is able to integrate to other matched machine in bottling line, fully complete and intelligence control advantage.

Features

- Strong compatibility, suitable for various sizes of cap shape, bottle shape.
- Equipped with three pairs of friction wheels, self-adjust tightness, helpful the caps surface
- Wide applicability, it is simple and convenient if change bottles and caps, just adjust some components.
- Equipped with human-computer interface and PLC control system, Ensure more stable operation and easier handling
- Self-diagnose errors and stop working to make alarm at errors and missing bottles, caps. The bottle with twisted cap, anti-cap and without aluminum foil will be removed.
- Automatically arranging caps- falling caps- screwing or pressing caps
- Screwing by friction, transporting caps by circumrotating, no shake, low noise.
- No caps and in trouble the machine will automatically stop.
- Airproof and dustproof, easy to disassemble, according with GMP.

Parameters

Applicable	Type	round, square, flat square, special-shaped plastic bottles
Capacity	Bottles/min	50-120
Power	W	1800
Voltage supply	V	380V/220V according to customers' requirement
Pressure	MPA	0.6
Net dimensions	mm	2550*1050*1900
Weight	KG	650
