

ZS Series High Efficient Screening Machine

This eccentric shaft vibrating screen is applied for continuous screening of powder and inhomogeneous granulates in such trades as pharmaceutical, chemical and foodstuff etc.

Feature:

Comprised of vertical vibration motor, screen base, mesh frame, screening chamber and rubber vibration ring etc, this machine can be used either for single layer or multilayer grading, featuring compact structure, convenient handle and maintenance, stable operation, low noise, large handling, small size and strong availability etc.

Technical Parameters:

Model	Production capacity	Meshes screen	Vibration frequency	Motor power	Overall dimension	Weight
ZS-400	40-500kg/h	2-200mesh	1500t/min	0.4kw	600*500*1100mm	200kg
ZS-600	200-1500kg/h	2-200mesh	1500t/min	0.4kw	800*700*1150mm	250kg
ZS-800	200-2500kg/h	2-200mesh	1500t/min	0.75kw	1100*950*1150mm	300kg
ZS-1000	500-3500kg/h	2-200mesh	1500t/min	1.1kw	1200*1100*1250mm	380kg
ZS-1200	800-5000kg/h	2-200mesh	1500t/min	1.5kw	1380*1300*1280mm	450kg
