

## *Round / Square / Flat Bottle Labeling Machine*

### **Product Characteristics:**

1. Suitable for round bottle single side, square bottle single side, double sides, three sides, flat bottle single side, double sides. Widely used and strong applicability
2. Synchronous chain correction mechanism ensures smooth and accurate correction. Universal machine head synchronizing mechanism can be applied to all kinds of taper bottle labeling
3. Transparent sticker labeling without foam, adhesive sticker labeling without wrinkle
4. Well-known electrical components abroad, the servo motor speed is high, the stability is strong
