

Pneumatic Blister Packing Machine ABM-I

Pneumatic Blister Packing Machine ABM-I is designed for small pharm factory, healthcare plant, food plants and preparation rooms, which can be used to pack solid drugs like capsule, tablet, gelatin pearl, suppository, milk tablet, candy and hardware.

Description

ABM-I blister packing machine is our newly developed pneumatic blister sealing machine. On the basis of the previous manual blister sealing machine, the machine enlarges the mold size, adds a precious sealing timer, and adopts cylinder for sealing that provides sufficient for sealing and makes sealing easier. Hence, it improves the product quality and production efficiency.

This machine is designed for small pharm factory, healthcare plant, food plants and preparation rooms, which can be used to pack solid drugs like capsule, tablet, gelatin pearl, suppository, milk tablet, candy and hardware. The whole set is of compact design, beautiful appearance, smooth operation and low noise. It uses internal heating method to ensure the PVC is evenly heated. There is no bubble in the aluminum foil while heating and hence no waste will occur.

Parameter

Model	ABM-I
Max. Heating Area	135*115mm
Heating Temp.	90-150°C
Heating Time	3-6sec
Air Pressure	0.6-0.8bMPa
Air Displacement	0.12m ³ /min
Air Supply Port Dia.	10mm
Power	1000W
Power Supply	110V 60Hz/220V 50Hz
Dimensions	320*300*375mm
Net Weight	21kg
