HYTB2-150FB Automatic Front and Backside Sticker Bottle Labeling Machine

Automatic Front and Back Double Side Sticker Labeling Machine applies to irregular products or product corresponding to the rules to attach both sides or just labeling unilaterally. Host design labeling machines using imported and domestic advanced technology to improve and make a solution for instability of general domestic labeling. By optical fiber computer control, we can get the synchronization track. The output of labels is controlled by a stepper motor or servo motor. It can detect the objects and size of labels automatically. It is modern and advanced electromechanical integration equipment automatically controlled by microcomputer mode, with large LCD touch panel, display and memory devices containing dozens of memory devices. The operation is simple, the labeling is accurate, the performance is reliable, and there is no noise. Sticker labeling machine is easy to clean, not moldy, beautiful after labeling and of high production efficiency. It is strong and won't fall off on its own.

Automatic front and back side sticker labeling application machine is suitable for labeling for labeling on flat bottle, square bottle and round bottle.

Automatic double side label applicator is widely used in bottling of daily chemical, agricultural chemical, food, personal care and pharmaceuticals industry.

Main technical data

- Driving Mode: Servo Type
- Yield: 20-150pcs/min
- Operating direction: Left or Right
- Conveyor Speed: ≤ 40 (m/min)
- Labeling Accuracy: ± 1.0 mm
- Label Material: Adhesive sticker, opaque or transparent label
- The inner diameter of label roll: 76 mm
- The outer diameter of label roll: 350 mm(max)
- The suitable size of label: Width 15-300 mm length 15-300 mm
- The suitable size of labeling objects: Can customized
- Printer use air: 5kg/cm²
- Voltage(in China): AC220V 50/60HZ Single phase(can customized according to client need)
