

Labeling Machine For Boxes YSY-290

Labeling machine for boxes realizes labeling and filming on the upper plane and upper arc of the workpiece, such as boxes, books, plastic shell, etc.

Unique and intelligent labeling design, providing technical support for the high-speed operation. In addition, it also protects the users and effectively prolong the service life of the equipment. Safety is one of the highlights of automatic labeling machine for boxes. When the equipment is in operation, if there is a safety hazard due to improper operation, the safety protection system will automatically detect it and stop running immediately. You can continue only after passing the test and approval.

Product Features

1. Labeling accuracy is ± 1 mm. Adopt product-oriented gap elimination mechanism and label anti-offset mechanism.
2. Adjustable labeling position (fixed after adjustment), making the conversion between different products and label winding simple and time-saving.
3. It adopts excellent PLC&touch screen&servo motor&standard sensor electric control system control, high safety factor.
4. Man-machine interactive interface, with Chinese and English comments. Easy to use and simple to maintain.
5. The mechanical structure is micro-designed, which occupies less space. The equipment is easy to move and install in the pipeline.
6. Labeling stability is good, the labeling is flat, wrinkle-free, and bubble-free.

7. It can label on most product flat and large arc surfaces.
8. Stainless steel and high-grade aluminum alloy material, firm and beautiful overall structure.
9. Nothing, no labeling, automatic correction and detection when there is no label.
10. With fault alarm function, production counting function, power saving function, production number setting prompt function, no labels alarm.
11. Complete equipment supporting materials (including equipment structure, principle, operation, maintenance, repair, upgrade, etc.), provide sufficient guarantee for the normal operation of the equipment.

Technical Parameters

Model	YSY-290
Product Name	Labeling Machine For Boxes
Product Type	Single Side Automatic Labeling Machine
Labeling Speed	1-50m/min
Labeling Precision	±1mm
Paper Roller Inner Diameter	Φ76.2mm
Paper Roller Outer Diameter	MaxΦ330mm
Over Dimension(mm)	2000×700×1400
Total Power	1-1.5KW
Voltage	220V single phase /50HZ
