

Automatic Cellophane Wrapping Machine YC-260

YC-260 is a fully-automatic overwrapping machine for cosmetics, perfume, chocolate, tea, etc...all kinds single boxes.

It is capable of reaching production speeds up to 120 wrappings per minute.

Because of its robustness, this machine is particularly suitable for multi-shift operation.

Features

1. High speed packing of single boxes.
2. CAM driven ensures machine stable running, pneumatic drive auxiliary.
3. Wheel control film feed, precision and easy.
4. Stain Steel 304 machine body and organic glass cover.
5. GMP standard alumina working plate, flattening and smoothing.
6. Flexible size ranges and quick change over mould.
7. Tear tape, ink printer, sensor is optional.

Technical Parameters:

Model	YC-260
Packing Speed	60-120pcs/min
Packing Size	L(38-110)*W(15-120)*H(10-40)mm
Electric Supply & Power	220V 50HZ 3kw
Weight	400kg
Overall Dimension	1350*850*1600mm (L*W*H)
Conveyor Size	1000*150*1100mm
Compressed Air	0.3MPa
