

## FX-6AS Automatic Rotary Capping Machine

This machine combines bottle-feed, cap-sorter, cap-elevator, capping altogether in one. The rotary structure catches the caps in the certain position, which is very stable and reliable. When compared with foreign capping machine, it also boasts high capping efficiency, high qualification, and wide application. It is applicable to various size of glass and plastic bottles and caps.

### Parameters:

Speed	≤6500 bottles/hour(100mL)
Qualified rate	≥99.5%
Suitable bottle size	Round bottle Φ40-90mm H 80-230mm Square bottle L 45—110mm W 45—60mm H 80—230mm
Cap size	Φ25-60mm H20-40mm
Capping head	6 heads
Air pressure	0.6-0.8 Mpa
Power supply	~380V 50Hz/4.0KW
Machine weight	Around 1600Kg
Machine size	1995×1300×2246mm(L×W×H)
