

GSZ-130P Automatic Cartoning Machine

As an light, electric, pneumatic and machinery integration, GSZ-120P has improved performance and working efficiency. The equipment can carton quickly and keep stable and reliable during high speed operation.

Such cartoning machines can carton bottles (round or flat). Its working process consists of product conveying, leaflet conveying and folding (1-4 folds), leaflet detecting, carton forming and conveying, products and leaflet conveying, batch number embossing and mechanical carton sealing (or with hot melting glue), rejecting and end product discharging.

Features

- PLC control system, frequency converter and other electric components are all outsourced from international famous brands.
- The equipment adopts HMI operation system.
- The equipment stops automatically when it is overloaded.
- Cartons without products or leaflets will be rejected.
- The equipment can display errors, alarm and count end products.
- The equipment works stably and can be operated easily.

Technical Parameter:

Model		GSZ-130P
Cartoning speed		30-120 cartons/min
Carton	Quality	250-350g/m ² (depending on carton size)
	Size (L*W*H)	(70-200)mm*(35-120)mm*(14-70)mm
Leaflet	Quality	60-70g/m ²
	Unfolded leaflet size (L*W)	(80-250)mm*(90-170)mm
	Fold	1-4 folds
Compressed air	Working pressure	≥0.6mpa
	Air consumption	120-160L/min
Power supply		380V, 50HZ
Main motor power		1.5kw
Overall dimensions (L*W*H)		4100mm*1100mm*1550mm
Machine weight		About 1400kg
