

DXDY-320 Liquid Automatic Packaging Machine 3-sides Sealing

DXDY-320 liquid automatic packaging machine process parts are all made of stainless steel. With high-level balance tank or self-priming pump quantitative filling, straight heat sealing and cutting, bag size, packaging weight, sealing temperature adjustment convenient and reliable, the machine can production date ribbon print, edge Seal, back seal, photoelectric tracking.

The machine picture indicates that the machine is 3 sides sealing bag liquid automatic packaging machine. It is suitable for soy sauce, vinegar, juice, milk and other liquids packaging.

Parameter:

| Model | DXDY-320 |
|-------------------------|---|
| Packaging speed | 2000 bags/hour |
| Packaging quality range | 200-500g/bag |
| Filling accuracy | ±1.5%/bag |
| Film Size | Thickness: 0.08mm, Width: 320mm (240mm) |
| Voltage | 220V/380V 50Hz |
| Machine power | 1.2Kw |
| Total weight | 350kg |
| Dimension | 1057×750×1850mm |
